Laſt Week arrived here the Captains Hatch *and* Skilling *from* LONDON, *by whom we have Prints to the* 3*d of* November, *from which we have extracted the following Articles of Intelligence, viz.*

LONDON, October 20.

THE new commercial regulations in North America are complained of as grievous to the colonies. Every king's ſhip is a Guarda-coſta, and every cargo of the American product is deemed prohibited goods. Flour, bread, ſalt proviſions, lumber, fiſh, live ſtock, poultry, fram'd rafters, iron work, cooprage ſtores, &c. are commodities always welcome to the French and Spaniards, by the exportation of which the planters in America are enabled to make their remittances to England, and for which they receive in return from the French and Spaniards either money, or rum, ſugar and treacle at 30 per cent. in their favour; if, therefore, this traffic is prohibited, the colonies muſt be ruined, and the mother country, by that means, loſe the only gainful, branch of trade by which her manufactuers are principally ſupported.

A moſt affecting letter has appeared in the papers from Capt. Summers, commander of an American veſſel from New-London for Dominica with horſes, lumber, fiſh and onions, but, happening in hazy weather to fall in with Martinique, was boarded by a Guarda Coſta, his ſhip ſeized, himſelf and men ſtript and impriſoned in a dungeon among Negroes and felons, the veſſel and cargo confiſcated, the owners [illegible] and the captain charged with the expences of confiſcation; which not being able to pay, he has been in that miſerable ſituation 6 months.

Saturday the 13th, 23 French-Hair-dreſſers, barbers, 17 cooks, &c. landed at Union ſtairs from France!

Duties impoſed upon the merchants, at the [illegible] by the noble Commander there, being [illegible] by the Treaſury, are ordered to be refunded, with intereſt, and ſubject to 9 per cent. exchange, [illegible] freight home, and 5 per cent. commiſſion to the [illegible]ctor.

Differences have ariſen between the king of Great Britain, and the Chapter of Oſnaburg, relating to the adminiſtration of affairs in that Biſhoprick during the minority of the young prince.

On the 21ſt died the Rev. Mr. Roe, Ordinary of Newgate.

The 26th died WILLIAM HOGARTH, Eſq; the celebrated painter.

Oct. 31. It is ſaid an Expreſs is ſent to Plymouth for the Edgar Man of War to ſail directly with ſome Diſpatches of Conſequence.

When the corpſe of the Duke of Devonſhire arrived at Dover, the Cuſtom-Houſe Officers behaved in a Manner that gave very great Offence to every body preſent. They not only inſiſted upon opening the Coffin, to ſee if any contraband Goods were in it; but on ſeeing the Body, ſtruck it with a Tuck to be convinced it was a real Corpſe.—But however improperly they may have behaved on this occaſion, it is certain, that the ſtrict Searches made of late have been owing to the very great Frauds practiſed by the ſtale Trick of putting Goods of Value into coffins. This was very commonly practiſed about 40 years ſince, and with pretty good ſucceſs.—But once, upon the uncommon appearances of a clergyman, an undertaker, and the reſt of the apparatus of a funeral, the officers at Dover were a little ſuſpicious, and determined to open the coffin, and, to their great ſatisfaction, found a moſt valuable cargo of fine laces, &c. This did not diſcourage a late high bailiff of Weſtminſter, who when biſhop Atterbury's corpſe was ſet out from Calais to England for interment, took the opportunity of running in to the coffin, Goods to the amount of 7000l. which were ſeized and condemned at Dover.

Yeſterday Morning a Meſſenger arrived from the Right Hon. the Earl of Hertford, our Ambaſſador at the Court of France.

The King of France has promoted the Sieur Nelivos, Captain in the French Foot Guards, to Major General of his Armies; and has appointed him Governour of the Iſlands of Guadaloupe in the room of the Marquis de Bourlamaque.

As much has been lately ſaid of the People on the Continent of America ſetting up Manufactures at this Time, to rival ours, it may not be amiſs to obſerve, that this is no new Complaint; and we have it from the beſt Authority, that in 1719, when Col. Shute was Governor of Maſſachuſet's Bay, in New-England, he informed the then Board of Trade, that in ſome Parts of the Province the Inhabitants then worked up their Wool and Flax, and made a coarſe Sort for their own Uſe; there were alſo Hatters in the Maritime Towns; they alſo manufactured the greateſt Part of their Leather; and that ſix Iron Furnaces and 10 Forges were ſet up for making Iron.—Governor Belcher, who ſucceeded him in 1731, confirms the ſame; and Col. Dunbar, Surveyor-General, of his Majeſty's Woods in North-America, in his Letter to the ſame Board, of Sept. 1730, mentions their manufacturing and exporting Hats to Spain, Portugal, and the Weſt-Indies. And the above Col. Dunbar concludes his Account with obſerving to their Lordſhips, 'That it is with the greateſt Difficulty we are able 'to procure true Information of the Trade and 'Manufactures of New-England; which will not appear extraordinary, when we acquaint your Lordſhips, that the Aſſembly of the Maſſachuſets-Bay 'had the Boldneſs to ſummon Mr. Jeremiah Dunbar, Deputy Surveyor of the Woods, before them, 'and paſs a ſevere Cenſure upon him, for having 'given Evidence at the Bar of the Houſe of Commons of Great Britain, with reſpect to the Trade 'and Manufactures of this Province.'

It is now ſaid that a further Reduction of Land Forces will not take place, in conſequence of a Reſolution to fill up the Marine Corps to their full Complement, and to retain thirty Ships of the Line, beſides cruiſing Frigates, Sloops, and Tenders, in Commiſſion.

It is now ſaid the vacant blue Ribbon will be given to Earl Gower, who is to go Lord Lieutenant of Ireland; and it is alſo ſaid, that the Earl of Northumberland will be appointed firſt Lord of the Treaſury.

BOSTON, January 14. 1765.

Wednesday last the Great and General Court or Assembly met here, being the Day to which it stood prorogued.---And on Thursday his Excellency the Governor was pleased to make the following SPEECH to both Houses of Assembly, *viz.*

Gentlemen of the Council, and
Gentlemen of the House of Representatives,

AT the Opening of this Session, I have the Pleasure to congratulate you upon the Storms which threatned the Peace of *Great-Britain* being happily blown over: The hasty and ill advised Incroachments upon our Rights by some of the *French* and *Spanish* Commanders have been disavowed by their respective Courts; and fresh Assurances have been given that the Acquisitions confirmed to us by the late Peace shall be enjoyed without Interruption; which will be further secured by the best of Guarantees, a respectable *British* Navy.

I have also to congratulate you upon the happy Termination of the *Indian* War in a Manner both honourable and safe; and which must effectually discourage such Attempts for the future. We, who who are at a Distance from the Scenes of Action, should not be indifferent to this interesting Event; as the Welfare, and particularly the Peace of every Part of *British* America, is the Concern of the whole.

I have, in pursuance of your Request made to me last Session, recommended to the Favor of his Majesty's Ministers, the Petition which you prepared to be presented to the House of Commons: And I flatter myself that these Representations will have Success; as they must receive great Weight from the dutiful Manner in which they are formed. I shall not neglect any other Opportunity to promote the real Welfare of this Province, consistently with its Subordination to the Kingdom of *Great-Britain* and the common Interest of the whole Empire.

I have at present nothing to lay before you, but what arises within the Province, which I shall communicate to you at proper Times. In these, and in all other Matters, I shall not doubt your Attention to your Duty, both to your King and to your Country. The late exemplary Instances of your Unanimity, Prudence, and Moderation, in Times of Difficulty and Distrust, will distinguish you to your Advantage, will confirm the Reputation you have hitherto acquired, and give Assurance of your Resolution to support it by your future Conduct.

Council-Chamber, FRA. BERNARD.
Jan. 10. 1765.

On Friday last the following ADDRESS *was presented to his Excellency the Governor, by a Committee of both Houses.*

To His Excellency FRANCIS BERNARD, Esq; Captain-General & Commander in Chief in and over his Majesty's Province of the *Massachusetts-Bay*. The ADDRESS of the COUNCIL and House of REPRESENTATIVES of said Province.

May it please your EXCELLENCY,

WITH great Pleasure we received your Excellency's Congratulations; and sincerely rejoice in every Occurrence that tends to establish the Peace and Prosperity of *Great Britain*---The disavowal of the late Incroachments upon our Rights, and the fresh Assurances given by the *French* and *Spanish* Courts, that the Acquisitions confirmed to us by the late Peace shall be enjoyed without Interruption, we hope are sincere: but the best Guarantee of those Acquisitions is the *British* Navy, which we hope will ever be maintained on so respectable a footing, and be under such Direction as to frustrate all Attempts to invade them.

The happy Termination of the *Indian* War, in which so many of our Fellow-Subjects have been massacred, and so extensive a Frontier desolated, must give sincere Joy to every Breast susceptible of the feelings of Humanity; at least to every one that bears any Affection for *British America*. We in this Province in particular, tho' at a Distance from the late Scenes of Cruelty, cannot be indifferent to this Event; having often experienced the severest Effects of *Indian* Rage. May this Peace prove an honorable and lasting one.

We are much obliged to your Excellency for recommending to the favor of the Ministry our Petition to the House of Commons. We flatter ourselves the Representations therein made will have success, not only from the dutiful manner in which they are formed, but from the necessary Connection there is between the Interest of the Nation, and the success of that Petition: it being a demonstrable Truth, that the national Interest will be best promoted [illegible] by encouraging the Trade of the Colonies. [illegible] prospers or declines, so will the Trade of *Great-Britain*; but in a greater Proportion. The Wealth [illegible] Power of *Britain* however great, are still in their [illegible] nority compared with what, 'tis probable, they [illegible] one Day be, if the Trade and Growth of her Col[illegible] are not impeded.

We are also much obl[illegible] your Excellency fo[illegible] your kind Declaration [illegible] shall not neglect [illegible] any other Oppo[illegible] to promote the real Welfare of this Province, consistently with it's Subordination to the Kingdom of *Great-Britain*, and the common Interest of the whole Empire."------It is in a consistence with these, that we hope for your Excellency's Endeavours to promote the real Welfare of the Province: and in their Endeavours our Inclinations conspire with our Duty to give your Excellency our best Assistance.

In all Matters your Excellency shall lay before us, we hope to make it evident that we are influenced by a Principle of Affection as well as Duty to our Sovereign and Country. It is our Honor to be in their Employment, and we shall esteem it our Happiness to render them any real Service.

If we have exhibited any exemplary Instances of Unanimity, Prudence and Moderation, it gives us a real satisfaction that they meet with your Excellency's Approbation.

We agree with your Excellency that the Times are difficult; but we hope they are not Times of distrust. We distrust not the Wisdom and Goodness of Parliament, having with the Colonies in general often experienced the happy Effects of both. On the same Wisdom and Goodness, next to the Supreme, we still rely. As that respectable Body has Power, we humbly trust their Wisdom and Goodness will exert it, to remove the Embarrasments upon our Trade, to which the difficulty of the Times is owing.

If, in your Excellency's estimation, we have acquired any Reputation hitherto, we hope to support it by our future Conduct; at least, to evince that we have done our best for that Purpose.

LONDON, October 24.

The Leaders in the Episcopal Society for the Propagation of the Gospel in Foreign Parts may consider, whether it might not be more proper to employ their Wisdom and Revenue, for some Years, in recovering their own thinned Flocks from Popery at home, lurking intolerant Popery, than in Missions abroad, and in episcopizing Protestant Dissenters, and converting the Indians.

Octo. 25. The King of Denmark has received a mail from the society of learned men whom he sent into Arabia. This mail contains five hundred volumes extremely ancient, all wrote in Arabic, and amongst them there are several bibles, one of which was wrote above 1000 years ago.

Oct. 28. Arrived the Dispatch, Phillips, from Boston, at Lancaster.

It is said a scheme is on foot for the more regularly relieving the several British regiments now on station in the West-Indies and North America, by which such troops as are order'd abroad, may have an opportunity of returning again to their own country, without being condemned to spend half their lives in the torrid Zone.

They write from Lisbon, that in digging up the Foundation of an old Palace burnt down in the late Fire, the Workmen found an Urn containing three Hundred Gold Medals of the Emperor Titus, which appear to have been struck soon after that Prince's last successful Expedition against the Jews, having this Inscription. TITO VESPASIANI AVGVSTI FILIO, IVDÆIS SUBACTIS.

Oct. 29. His Royal Highness the Duke of Cumberland's horse King Herod, beat the Duke of Grafton's Antonius for a thousand guineas. The betts on this occasion are said to have amounted to more than a hundred thousand pounds. The difference that determined this enormous sum was no more than half a neck's length.---His Royal Highness, whose life was tho't in danger, is greatly recovered. An incision was made in his leg, just under the knee, and a surprising quantity of matter discharged, but the wound is now healed.

Wednesday was held a Board of Trade, when several American petitions were considered, and agreed to be laid before the ensuing Parliament.

Oct. 31. The advices received from America, are full of the bad effects of the late act of parliament for regulating the trade of the plantations, and for laying a duty on their exports and imports, in order to defray the expences of their own government.---the prohibitions lain upon their trade by this act, are grievously complained of, and the rigour with which these prohibitions are enforced by the men of war stationed on their coasts for that purpose, are by no means relished by the Americans, who subsist in a manner by their clandestine commerce with the French and Spaniards, and which must be connived at, if any advantage is to be expected from them by their mother country. On the other hand, the West-Indians complain of this indulgence, and are preparing memorials to be presented to parliament, to put a stop to the North-American distilleries, from French materials.

They write from Glasgow, that great numbers of journeymen lately employed in the stocking manufactures, and buoyed up with high prospects of engagement made them by some American agents, have embarked this summer for Boston and Philadelphia; where it is said four new different branches of weaving business have been already set up.

Nov. 1. It is now said, that France has totally relinquished all claim to Park's Island, by virtue of some concessions on the part of Great-Britain; and as this place is so materially advantageous to our fisheries, it is said, some strong fortifications will be soon erected thereon.

We hear an additional duty will soon be laid on the foreign importation of hemp, hempseed and flax, particularly from Russia and the Baltick; great quantities, the growth of our own American colonies, being expected over early in the spring.

An Evening paper says, that some great changes in the administration have already been made, but will not be publicly declared till after the meeting of the parliament.

A Report prevails at present that a certain Great Personage of the first Rank is about purchasing Cannonbury-House, the Park, and some Ground adjoining, near Islington, for a Summer Residence.

Commissions are come over from New-York, for Implements of Husbandry and Gardening, to the Amount of 5000l. to be forwarded with all speed.

Nov. 2. By a private Letter from Newmarket we are informed, that his Royal Highness had taken Cold on Friday last, which occasioned an Inflammation and Swelling in his Throat, but that having been bled, his Royal Highness was much better, and his Leg was as well as could be expected.

By recent Letters from Cleves, there is an account, that some of the Rain, of a red Colour, resembling Blood, which fell there the 9th ult. has been examined into by Dr. Schutte of that Place, who has delivered the Result of his Operation and Observations to the Lords of the Regency.

It is now said, that for very prudential reasons, never less than 5 regiments on the British establishment will from henceforth be kept in commission in the province of New-York, Pennsylvania and New-England.---It is expected, that Penfacola in Florida, and two British Islands in the West-Indies, will speedily be declared free ports.

We hear a list of all such goods as are hereafter to be deemed contraband in any of the colonies of North America, are now making out, and will be sent over by the next packet; according to which his Majesty's sea and land officers, collectors of the customs, are to regulate their conduct with regard to all future seizures.

Extract of a Letter from a Gentleman at Virginia to his Friend in this City, Sept. 4.

"There is the same dull Round of Business ensued us usual; the Courts are filled with Law[illegible] and many People are obliged to sell their [illegible] Melancholy and uneasiness are visible in most [illegible] tenances, and happy is the Man that can k[illegible] Effects together. Tobacco is low, and Gra[illegible] Sorts much fallen; from whence then is to co[illegible] Relief? It can happen, in my opinion, on[illegible] the strictest Frugality in our Affairs. Hemp Flax are the two Objects that are looked on, as if they would deliver us; and so they may in a great Measure, but something else is necessary.

Nov. 3. They write from France, that by Letters from New Orleans, dated the 29th of June last, they had Advice, that the Indians who were formerly in Friendship with the French, when they were in Possession of Canada, give the British subjects great Uneasiness, by killing a great many of them, and have declared that they never will be cordial Friends with the English.

Divers Utensils for the smelting of Copper Ore are now getting ready to be shipped for Quebec.

Extract of a private Letter from on board the Medway, dated Calcutta, March 20, 1764.

"We were just going to sail for Madras, when we had Advices commanding our stay here, in order to protect this Settlement, as fresh Disturbances are gathering up the Country, another Power having been prevailed upon by Cossim Aly Cawn to join him, in order to try a second Campaign. However, we hope this will not produce any bad Effects, as our last Accounts from Madras give us Reason to hope that Cossim himself would soon be obliged to leave the Country, as his Stay must necessarily endanger his being taken Prisoner. It is now computed, that of black and white People in our Interest, he has massacred in cold Blood about 4000 exclusive of the many destroyed in Battle."

It is said that the Sum of 30,000l. will be granted next Sessions for the better rendering the Bason of Penfacola one of the best Receptacles for Trade and Shipping on the British American Continent.

Philadelphia, December 20.

By a gentleman from Barbados we have [illegible] that the schooner Freemason, Capt. James [illegible] from Boston for the Grenades, foundered a[illegible] lat. 24. 30. long. 56. after having been [illegible] constantly pumping, and that the Captain [illegible] ple were taken out by Capt. been taken up, and carried to a house, by some persons going that way. One of them is so far recovered as to tell they were met by two men on horseback who used them most barbarously, and robbed him of 8 pounds, but could not tell what they took from his companion, who is so badly wounded in the head, that it is said his scull is broke, and 'twas feared he could not live.

On Monday evening the house of Mr. Jonathan Evans was robbed of a three pint silver coffee pot.

The same Night a fellow went into the house of Mr. Reynolds and snatched up a silver tankard, notwithstanding a woman was sitting in the room; and on her calling out to him to leave the tankard, he threw some liquor that was in it in her face, and got clear off with his booty, tho' she followed him a considerable way, hollowing Stop Thief.

NEW-YORK, December 31.

On Tuesday night we had a very hard gale of wind with much snow; several vessels in the harbour received damage, and one ship overset.

We hear from Wilmington in Carolina, that Mr. Whitefield is not drowned, as was reported, but is arrived safe at Charlestown the 30th of November in perfect health, & proposed to set out for Georgia the Tuesday following.

Last week a man dressed like a country labourer, attempted to pass a counterfeit old Spanish dollar or cob, very badly executed, being brass slightly wash'd with silver, but being questioned, he went off and left it behind him.

We hear there are some late advices come to town from the army at Fort Pitt, but have not time to get the particulars, or any authenticated account. It is said the 6 hostages given by the Shawanese Indians, had made their escape, but being pursued, had been all retaken, except one, who was shot.

A letter from Detroit of the 12th ult. says, that some Indians who had been out on a scout against the Shawanese, were returned with the scalp of one of their chiefs wives: Col. Campbell, our commandant, has made them several presents.

George Johnstone, Esq; Governor of West Florida is arrived at Pensacola.

A gentleman of this city whose only son was interred last night, appeared at the funeral without any other mourning than a hatband, & the bearers without scarfs.

We hear from Jamaica, that 2 Frenchmen, 2 Mulattoes and a Negro had seized one of their pilot boats with 8 Negroes on board, & were said to be gone upon the piratical scheme: The Druid sloop of war was sent in quest of them to windward; & a schooner with 20 men was fitted for Cuba, and were to call at every place where there was any probability of finding them.

BOSTON, January 14. 1765.

An ACT has passed the General Court in their present Session, providing, That the Superior Court which by Law was to have been held at Charlestown for the County of Middlesex on the last Tuesday of January Instant, shall not be held there until the third Tuesday in April next.

Yesterday Morning died here very suddenly Mrs. *Miriam Hill*, in the 69 Year of her Age,---Relict of the late Mr. *Samuel Hill*, of this Town, Merchant. Her Remains are to be interr'd on Wednesday next.

We hear from Sharon in Connecticut, that a Girl of that Place, but twelve Years old, and small of her age, was a few Days ago delivered of a Son, weighing when it was born near 14 lb. and that the Mother and Child are likely to do well.

And from Salisbury in the same Colony, that as a Man was going up a pair of stairs there, with a Bag of Salt on his shoulder, his Foot slipt, and broke one of his Legs short off, but being immediately assisted by a very able Surgeon, he could walk again within 24 Hours as well as usual. *Connecticut Courant.*

We hear from Suffield, that last Saturday se'nnight Mr. Elijah Kent of that place, being in a Sley, overtook a young Man with a loaded Gun, whom he invited to ride with him, but just as he was stepping into the Sley, the Horses took a fright, which threw him down, and in endeavouring to recover himself, the Gun catched in his Cloaths, and went off, and the whole Charge, with the Wadd, went thro' the upper part of one of Mr. Kent's Thighs, & wounded him so much that his Life is in Danger.

We have advice that the French are settling, with 1000 persons, a colony at a place call'd the Triangles, a little to windward of Surrinam: That they claim as far westward as the river Mariwina, part of which claim is within a few leagues of some Dutch plantations.---This proceedure of the French very much alarms their good friends the Dutch, who have sent an express to the States with an account of this affair, and another to the commander of this new French colony, to know the reason of their forming this settlement.---This step is the more alarming on account of the great number of wild Negroes on the back of the Dutch plantations, who, tho' at peace now, may perhaps be made the same use of against the Dutch, as the Indians on this continent have been against the British settlements.

Monday last Capt. Attwood arrived here in but 3 Days from Halifax; by the Papers we learn, that all the Neutrals, (so called) consisting of between 3 and 600, except 4 or 5 Families who have taken the Oath of Allegiance, have embarked on board Vessels for Cape-Francois. They had a weekly Allowance in that Province of Provisions, the same as Soldiers, in hopes of their becoming Subjects of Great Britain.---Their removing is felt by the Inhabitants in the extraordinary Rise of Wood there, which they used to cut and supply the Town with.

We hear from Halifax, that on the 31st of last Month was married there JOSEPH GORHAM, Esq; (late Major Commandant of his Majesty's Corps of Rangers) to Miss SPRY (Sister to Doct. SPRY, Judge of the Admiralty through America) a young Lady who possesses every Accomplishment conducive to the Happiness of the Conjugal State.

We hear from Nova-Scotia, that on the 18th of Decemb. the Body of one Thomas Roberts, Servant to Mr. Doble of Halifax, was found about 3 Miles from Fort Sackville; the Flesh was eat off his Face and Breast, supposed by Beasts: It is thought he was murdered, having a Cut in the right Side of his Skull into his Brain, with some Weapon, Governor Wilmot has issued a Proclamation, offering a Reward of 50l. to discover the Perpetrator of said Murder.

Monday Evening about 6 o'Clock a Man was stopped by a Fellow in an Alley at the North-End, who bruis'd him considerably, the Fellow drew out a knife and threatned to kill him if he did not deliver what Money he had, which was a Dollar. Two other Fellows, supposed to be in Combination, stood at a little Distance the whole of the Time.

And on Saturday Evening a Negro Fellow was stopp'd by two Men in Black Horse Lane, and questioned whether he had been selling Lemmons, or had any Money about him; upon his answering in the Negative they let him go.

We hear the Rev'd Dr. MAYHEW is chosen to preach the Dudleian Lecture at Harvard College in May next, the Subject to be, *for the detecting, and convicting, and exposing the Idolatry of the Romish Church, their Tyranny, Usurpations, damnable Heresies, fatal Errors, abominable Superstitions, and other crying Wickednesses in their high Places; and finally, that the Church of Rome is that mystical Babylon, that Man of Sin, that apostate Church, spoken of in the New-Testament.*

Captains Hatch and Skillings had very severe Weather on the coast, and it was with great difficulty they got into Port, it being a very heavy Snow Storm the Day they arrived in Nantasket Road, which was last Sunday se'nnight; the great Quantities of Ice in the Harbour prevented their coming up till Thursday.

Capt. Jarvis and Deverson from this Place were arrived in London.

We hear that JASPER MAUDUIT, Esq; has resigned the Agency of the Province, on account of his declining State of Health.

We hear that the Rev'd Mr. EAST APTHORP, who went Passenger from hence in Capt. Jarvis, purposes to reside in England.

On the 2d Instant the Rev. Mr. SAMUEL COTTON was ordained Pastor of the Church in Litchfield in New-Hampshire.---Out of a Number of Churches that were sent to, only three arrived, by Reason of the remarkable Difficulty of travelling.---The Rev. Mr. *Cooke* of Menotomy, made the first Prayer and gave the Right Hand of Fellowship; the Rev. Mr. *Wilkins* of Amherst, preached from those Words of our Saviour, *Blessed is that Servant, whom his Lord when he cometh, shall find so doing.* The Rev. Mr. *Merrill* of Nottingham, prayed & gave the Charge.---The Exercises were well performed and the Auditory universally well-pleased.

Wednesday last the Rev. Mr. SAMUEL STILLMAN, A. M. late of *Charlestown, South-Carolina*, was installed Pastor of the first *Antipædobaptist* Church in this Town; the Rev. Mr. CONDY having resigned. The Gentlemen who officinted on this Occasion, were the Rev. Mess. PEMBERTON, ELIOT, COOPER, and CHECKLEY, Junr. Mr. STILLMAN gave the Auditory a suitable Discourse upon those Words of *St. Paul—Helpers of your Joy*; Mr. CONDY took leave of his Church and Congregation with an affectionate Address.

Capt. Billings who is arrived at New London from the West Indies, sailed from thence in company with Capt. Joseph Cordis, in a Brig belonging to this place, which for several Days was very leaky, but that before Capt. Billings left her they had stop'd the Leak.

Capt. Robertson, in a Snow from this Place for South Carolina, was spoke with the 14th of Decemb. by a Vessel arrived at New York, in lat. 40. long. 65.

Marblehead, Jan. 5. 1765. Last Evening the Wife of Capt. William Curtis was decently interred here, in the new Mode, attended by the principal Gentlemen of the Town and a great Number of others: this being the first Instance of that Kind in this Town, due Care was taken to conform to the *Boston Method*, which seems to be universally approved; and 'tis not to be doubted but that so laudable an Example will be followed here in all future Funerals.
